

# Fifield Sno Drivers Trail Report

1/4/23

## Trail Status

North: Trail 111/Corridor 19N	Good
Northwest: Trail 101/Corridor 10W	Good
South: Trail 120/Corridor 19S	Good
Southwest: Trail 121	Good
East: Trail 101/Corridor 10E	Good (see note below)
Trail 107	Good
Trail 108	Good
Trail 106/Corridor 19N	Good (see note below)

## Trail Report

All trails have been recently groomed and most have a solid 5-inch base. Trail 101/Corridor 10 West has lost some of its base in some places because of heavy traffic... we ask that on this trail you watch your speed so that the base remains intact and rocks are not exposed. Trail 101 just west of Musky Jacks goes through a swamp that presently is not groomed until it will support the weight of our tractor and drag. There is an area of the swamp that has been compromised where our tractor and drag broke through the ice and snow. The area is marked but please use caution as you travel through this area. A car recently broke through the ice by the Federal boat landing on Round Lake right where the snowmobile trail enters the lake. This area is marked with yellow caution tape and orange barrels. Please use caution in this area and drive slowly. As always, be mindful that our volunteer groomers and our tractor and drag are on the trail every day of the week. They may be going in the same direction that you are traveling but they also may be coming towards you. Keep this in mind especially around sharp curves. Use your head and be safe.

### Notes:

- Trail 101 south of Hwy 70 to Sheep Ranch Rd. is not groomed and has open water and hazards.
- Trail 106 is groomed to the Iron County line. Trail 182 in Iron County is not groomed and has open water in spots.

- Lakes are not marked and should be avoided.
