

# Fifield Sno Drovers Trail Report

1/25/23

## Trail Status

North: Trail 111/Corridor 19N	Excellent
Northwest: Trail 101/Corridor 10W	Excellent
South: Trail 120/Corridor 19S	Excellent
Southwest: Trail 121	Excellent
East: Trail 101/Corridor 10E	Excellent (see note below)
Trail 102N between 121 & 103	Excellent (see note below)
Trail 107	Excellent
Trail 108	Excellent
Trail 106/Corridor 19N	Closed due to hazardous conditions in Iron County

## Trail Report

Our trails are currently in excellent condition with a strong snow base. Trail 101 just west of Musky Jacks goes through a swamp that presently is not groomed until it will support the weight of our tractor and drag. At the federal boat landing on Round Lake yellow caution tape and orange barrels mark an area where ice might be compromised. Please use caution in this area. Trail 102 between 121 and 103 occasionally is not regularly groomed because weight restrictions on the bridge will not support the tractor, so expect this section to usually be rough. As always be mindful that our volunteer groomers and our tractor and drag are on the trail every day of the week. They may be going in the same direction that you are traveling but they also may be coming towards you. Keep this in mind especially around sharp curves. Use your head and be safe.

Notes:

- Trail 101 south of Hwy 70 to Sheep Ranch Rd. is not groomed until it will support the weight of our tractor and drag.
- Trail 102 between 121 and 103 is not regularly groomed because weight restrictions on the bridge will not support the tractor, so expect this section to be rough.
- Trail 106 is currently closed due to hazardous conditions on Trail 182 in Iron County. Trail 182 is still impassible and has wet spots with "no travel advised".
