## **Trail Report**

We received between 11-14" of fresh snow from the storm last night. Unfortunately, our grooming tractor has broken down on the trail. The tractor is currently sitting on Trail 101, facing east, about 300 yards from Trail 108. It will be extracted from the trail the morning of 12/30.

Due to our groomer breakdown, only the East Trail 101/Corridor 10E and Trail 108 have been groomed. All other Sno Drove trails will remain ungroomed until a replacement groomer has been secured. Please ride with caution as conditions will vary.
