

# Fifield Sno Drovers Trail Report

3/2/26

## Trail Status

North: Trail 111/Corridor 19N	Fair to Good – some bare spots and lots of spots where the trail is just ice
Northwest: Trail 101/Corridor 10W	Fair to Good – some bare spots, some spots with small rocks by the bridge close to 111/19N, a lot of areas where the trail is glazed ice
South: Trail 120/Corridor 19S	Good – some areas where the trail is glazed ice
Southwest: Trail 121	Fair to Good – a few areas where rocks are starting to appear, many areas where the trail is glazed ice
East: Trail 101/Corridor 10E	Fair – some bare spots and some spots with deep ruts, areas with glazed ice
Trail 102N between 121 & 103	Fair – icy
Trail 107	Good – icy in spots
Trail 108	Good – icy in spots
Trail 106/Corridor 19N	Good – icy in spots

## Trail Report

All of our trails have about an inch of glazed ICE as a base with a dusting of snow on the surface. With this ice base, speed should be greatly reduced and caution should be used, especially on all curves. Sleds without scratchers may overheat. The trails are in late-season condition right now and will deteriorate quickly this week with the pending warm-up. Ride right. Ride sober. Ride with caution.
